

SUN VALLEY, IDAHO

Sun Valley Salt is the Leader in Himalayan Salt Panels (www.sunvalleysalt.com)

“Our customers are immediately transforming their space into one of exquisite beauty and inherent wellness simply by adding Sun Valley Salt's Himalayan salt panels.”

-Kristen Daley-General Manager, Sun Valley Salt

Bridging the worlds of luxury interior design and wellness, Sun Valley Salt manufactures the only engineered and integrated salt wall panel system for easy and elegant installation.

With exclusive innovation Sun Valley Salt has the ability to customize any application with in-house water-jet cutting technology. Additionally, the panels are beautifully back-lit with remotecontrolled LED lights.

Sun Valley Salt's commercial and residential installations offer stunning architectural enhancements and the promotion of a healthy living environment.

What are the unique health benefits of incorporating Sun Valley Salt's Himalayan salt panels into your commercial project, home, sauna or spa? The known benefits of Himalayan salt include allergy relief, respiratory rehabilitation, weight loss, detox and balanced hormones. Himalayan salt contains 84 different trace minerals that are bio-identical to the human body.

Hand-mined and hand-processed in the Himalayas, the salt is minimally altered. These untainted crystals have spent millions of years maturing under ancient lava beds.

“The members are absolutely blown away. I am getting comments daily from the Zenergy members.”

-Derek Agnew-General Manger, Zenergy Health Club and Spa-Sun Valley, Idaho

Sun Valley Salt is thrilled to bring this pioneering product to innovative designers and wellness enthusiasts.
